Thank You for Serving Grieving Parents

To those who serve families grieving the loss of a baby:

Thank you for caring for families who have lost a baby during pregnancy or shortly after birth. We believe that dealing with infant losses can be some of the most difficult work that you do. Families truly appreciate those who acknowledge their loss and provide a dignified burial for their child.

Proper burial is the only gift that they will be able to give this child and families want their baby's burial to be special. We appreciate all you do to make this possible. We are happy to provide you with caskets and urns for these grieving families.

When a family is experiencing pregnancy loss, there is little opportunity to provide for that baby, other than a proper burial or cremation. Choosing a casket and burial clothing may be the only earthly choice they will ever make for that child. With the assistance of Heaven's Gain, please offer choices for these families. We would be honored if you would consider our caskets and urns for babies who leave too soon. A size chart is available on the back cover of this catalog.

Order Processing:

We prefer orders be placed through our website to allow you to choose the correct type of shipping for your order. Only express orders are guaranteed to arrive by a specific day. Should you have any questions we are available by phone at (513) 888-4200 or email at heavensgain@heavensgain.org. Orders are sent out the same business day if placed by noon EST. We will try (not guaranteed) to get the order out if received after noon. If you will be placing an order after noon EST but you would prefer it to go out the same day, call to see if that is a possibility.

Shipping:

Next day shipping is possible but may be three to four times as expensive as ground shipping. Fed Ex Express or USPS Express have guaranteed delivery dates. USPS Priority Mail and FedEx Ground have planned delivery dates, but they are not guaranteed. **Save on shipping** by ordering more than one casket and/or urn to have on hand so you don't need to use express shipping. The shipping page on our website has more details.

Advocates for Parents of Perinatal Loss

(APPL)

Heaven's Gain Ministries (HGM) has established a vital service designed to address the lack of certified advocates who are appropriately trained to support families experiencing pregnancy loss. The training was designed to fully educate and train what we call, "Advocates for Parents of Perinatal Loss" or APPL. This 12-hour course will instruct advocates in non-medical methods of supporting parents experiencing miscarriage, stillbirth, or poor pre-natal diagnosis.

Before Delivery

No Heartbeat, before delivery APPL advocates will prepare parents for the birth of their baby once it is determined there is no heartbeat, and before they enter the hospital. Advocates meet with parents to alleviate anxiety and fears of the unknown. By receiving non-medical intervention, parents become empowered, ready to make the most of the short time with their child. Our trained advocates will work with the parents to create a birth plan. They will offer options that allow parents to make educated decisions to choose what memories and mementos they wish to create with their child.

During Delivery

During Delivery APPLs will be trained to avail themselves for questions during delivery via phone or in person. They can advocate for their clients and help to make sure the birth plan is understood and fulfilled as closely as possible.

After Delivery

After Delivery Advocates will be fully knowledgeable to assist parents with their disposition choices: burial or cremation. They can assist in the planning of a service or funeral. Advocates will understand they cannot take away the pain of losing a child, but they can help parents avoid additional trauma that happens if they are not prepared. There is no time limit on grief. Even well after delivery, advocates are trained to offer peer support to couples and individuals.

For more information on how to become a Certified Advocate for Parents of Perinatal Loss (APPL), go to our website <https://heavensgain.org/appl/>

Preserving Babies Too Small to Embalm

Saline Bath Preservation Information

At Heaven's Gain Ministries, we strongly recommend the **Saline Bath Preservation Technique** for the deceased baby. This requires a vessel.

The handling and burial of a miscarried or stillborn baby often brings with it some special challenges. The baby's skeletal system is not fully developed, and so the baby may not retain his/her natural form after birth. The baby's body is very fragile, and the skin may be sticky to the touch.

If still in the womb, the baby would be peacefully floating in his/her own amniotic fluid. Our vessels allow the baby to be suspended in water as nature intended at this stage of life, as opposed to being completely exposed to dehydration. The use of the vessel filled with saline water gives the body of the baby a womb-like environment.

We recommend a 0.9% saline solution or 0.9% contact lens solution, to "preserve" the baby therefore, slowing down the deterioration process. When not viewing the baby, place the baby in a cold (not frozen) place, to further slow the deterioration process. These techniques can be used for a couple to a few days until burial.

Often times a miscarried or early stillborn baby does not look exactly as expected or as seen in baby development pictures. When placed in a vessel with 0.9% saline water, the baby usually returns to his/her naturally beautiful state for that stage in pregnancy. This change in appearance allows other children and family members to view the baby while keeping the baby's body safe.

The clear vessel provides a wonderful opportunity to take beautiful pictures. Wrapping the bottle with a blanket allows family members to cuddle and rock the baby without worrying about skin breakdown. Even if the family prefers to not see the baby in the vessel preserving the baby in the vessel will help preserve them up until the viewing.

The Funeral Home page on our website www.heavensgain.org includes a video about the saline bath technique.

Miscarriage Kits

This miscarriage kit is designed to be used at home after a no heartbeat has been detected and the mother begins the delivery process. Its purpose is to measure blood loss, preserve the baby, and to locate the placenta.

The miscarriage kit includes:

- 1 collection pan to measure blood loss
- 1 chart to record measurements of blood loss
- 1 collapsible colander to be placed in the collection pan to hold the baby, placenta, and blood clots
- 1 squirt bottle to rinse and discern the colander contents
- 1 baby development card with pictures and directions on saline bath preservation technique on the reverse side
- 1 vessel to place the baby (sizes vary based on gestation of the baby)
- 1 bag for the placenta to refrigerate until decisions are made about any testing
- 3 pairs gloves

A good practice is to order these in bulk to have on hand.

You can find more information on ordering these on our website
<https://heavensgain.org/miscarriage-kit/>

A video describing the use of this miscarriage kit is available on our website
