

Sadly, I'm here to deliver
my baby who has died.

Attention Hospital Staff

Please be mindful of the questions
that you ask me to answer.
I will not be needing a pediatrician.

This card is provided by Heaven's Gain Ministries.

Dear Parents,

We are so sorry about the loss of your baby. We care and we are here to help. The opposite side of this card has been prepared for you to present to hospital staff if you are entering the hospital for delivery.

Heaven's Gain Ministries' certified Advocates for Parents of Perinatal Loss (APPLs) are available to offer our free services before, during, and after the delivery of your baby. Although we do not give medical advice, we can walk with you every step of the way with gentle support, professional guidance, and practical assistance.

"We lost our daughter at 26 weeks gestation. I truly don't know what we would have done without Heaven's Gain Ministries. Our APPL support person met with us that same day and helped us put together a birth plan. She helped us make decisions we hadn't even thought of so that by the time we got to the hospital we knew what memories we wanted to make with our daughter, in the little time we had with her.

Without the APPL's help I would have felt alone and lost. After the birth she journeyed with me as I slowly healed and dealt with my grief. APPLs are truly angels sent by God to help parents through their darkest moments."
