

Our Mission

Heaven's Gain Ministries' (HGM) mission is to provide for the physical, emotional, and spiritual needs of families experiencing pregnancy loss: before, during, and after the delivery of their precious baby.

Accomplishing Our Mission

Our Advocates for Parents of Perinatal Loss (APPLs) can prepare families for the birth of their baby. By creating a birth plan, the family can arrange special and meaningful moments that will form lasting memories and provide comfort over time. Our APPLs are also available for non-medical questions during the delivery of the baby. After the delivery, our APPLs provide support to individuals, couples, and groups. Information and resources are available throughout our website.

As part of our ministry, HGM also provides beautiful caskets and urns that attest to the dignity and respect of the baby. Our products are of the highest quality. We add individual touches and personalize every casket or urn we carry. Memorial gifts and helpful books are also available.

As a part of our mission, HGM also conducts research and keeps abreast of the latest in prevention of miscarriage and stillbirth.

after you deliver.*

Before You Deliver

During Delivery

After You Have Delivered

We are so sorry about the loss of your baby. Heaven's Gain Ministries' (HGM) Advocates are available to assist, no matter the gestation of your pregnancy. We know losing a baby is extremely difficult. Being prepared for the delivery is one of the most important things you can do.

Create A Birth Plan:

Before you deliver your baby, we recommend that you collaborate with us in creating an individualized birth plan. Our trained Advocates for Parents of Perinatal Loss (APPLs) can offer insightful guidance in the design of your customized birth plan that can help form precious memories.

Having a birth plan leads to a less traumatic delivery and more treasured memories that accompany healing. Medical professionals appreciate parents arriving with a birth plan so they can focus on each family's specific requests.

An APPL can prepare you for your delivery and be "on call" for any non-medical questions you may have during your hospital delivery or miscarriage at home.

Our Advocates for Parents of Perinatal Loss (APPLs) are here to help you at this very difficult time. We help you create a birth plan and implement it as reasonably as possible. We offer gentle support, guidance, and reassurance. We assist in memory making and treasuring time with your precious baby.

"We lost our daughter at 26 weeks gestation. I truly don't know what we would have done without Heaven's Gain Ministries. Our APPL support person met with us that same day and helped us put together a birth plan. She helped us make decisions we hadn't even thought of so that by the time we got to the hospital we knew what memories we wanted to make with our daughter, in the little time we had with her.

Without the APPL's help I would have felt alone and lost. After the birth she journeyed with me as I slowly healed and dealt with my grief. APPLs are truly angels sent by God to help parents through their darkest moments."

- Maraia

Dignified caskets and urns are available for babies of all gestations.

Grief Support services are available to individuals, couples, or groups. Our Peer Support Coordinator leads our online support groups and can accommodate in person or phone support.
